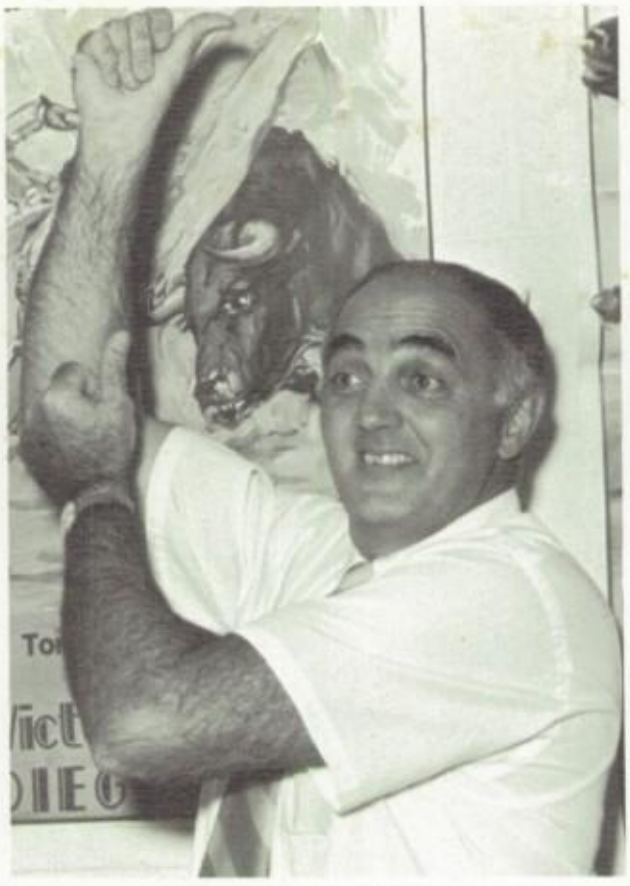
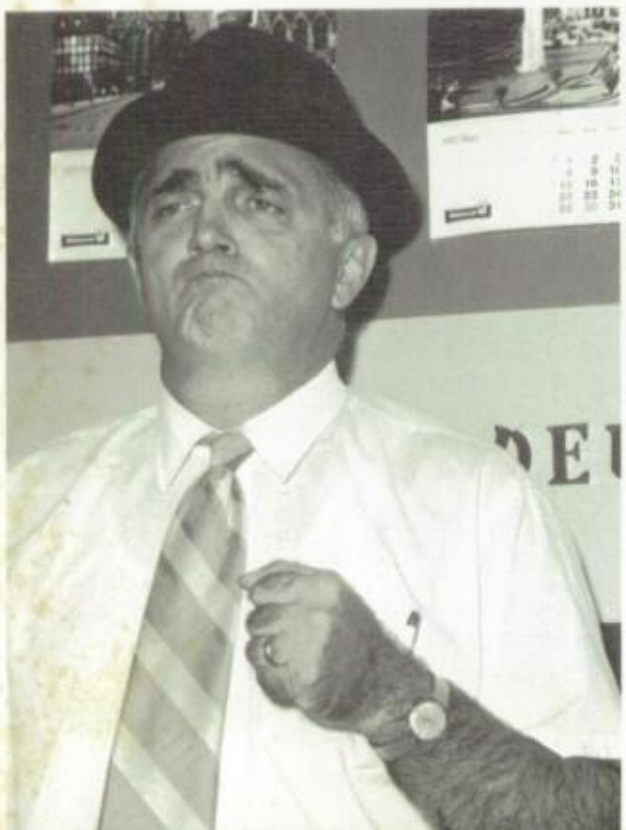
IL EST INCROYABLE!

So many of us go through life
  With only a passing into peoples lives,
Dipping for only a fingertip.
  Yet there is at least one among us who
Reaches into the till of people,
  Into the lives of many of us.

Of his laughter he gives
Of his knowledge he gives
Of his experience he gives
Of his time he gives
Of himself he gives.



MR. ANTHONY COPPOLA



Thank you ... Merci ... Gracias ... Danke Schön

To reach—to seek—to find
The goals of youth
So quickly forgotten
With passing time.

Soft winds breathe slowly
O'er quiet lands hushed by peace
A new dawn reaches to man.

Come, reach out,
Take my hand
Walk with me through pastures
Of green
Share with me your hopes.

Brightly
The sun
Shines,
The ocean
Rushes
To Shore ...
Savage
Docility
As
Deceptive
As
Life.

When they have gone
When I see their
Faces no more
That's when I realize
They were the people
I had really loved.

Caught,
Held tightly, longingly in a
Mind's embrace
A piece, a portion, a particle
Of time.

TO THE CLASS OF 1971:

It is a pleasure for me to communicate some of my thoughts as they relate to you, the Class of 1971. I feel guilty since I have not been able to spend the kind of time with you this year that I would have under normal circumstances. I regret this very much since I believe the primary role of the principal is to know, communicate and work with students. The preparation necessary to move into the new high school for the 1971-72 school year, the budget for new equipment, and other demands placed on my time by various groups in the community have been overwhelming. I can only hope for your understanding and express my appreciation for your cooperation during the school year. You have been a pleasure to have as the last senior class to graduate from the present high school building. I am amazed and pleased at how well you have done under the crowded conditions that exist.

Your yearbook theme, "Reaching Out", is appropriate in so many ways. You need only to listen to the news media to be aware that people today are reaching out for the same things men have always been reaching for: knowledge, love, peace, happiness, a sense of worth, dignity, and the other goals that we recognize and accept as worthy of our time and energy.

Our public debts, the destruction of ecological balance in nature, war, racial problems and prejudices, the drug culture, militant groups that see no alternative to our political system and culture but to destroy them, and generally, man's inhumanity to man are still problems that require your talents, concern, and effort if we are to have satisfactory solutions to these problems and others that are too numerous to mention.

I am grateful to have the opportunity each day to live and work with young people. You are the greatest and most precious natural resource we possess. It is in you that I see the dreams of today becoming the reality of tomorrow.

It may be helpful for you to know that I, along with the majority of adults, have tremendous faith in you. The kind of high school you have been educated in is a beginning for a better world. The trust, understanding and individual learning environment I have worked to create in the school with the help of the staff, community support, and you are major factors in achieving that goal. It has been an exciting and worthwhile experience and I am convinced Wilton High School is the kind of school that prepares today's students for tomorrow's world.

I sincerely hope you have enjoyed your years at Wilton High School and profited from the educational program. The staff and I are working to create an even better school environment for learning. I invite each of you to visit the new school and use the facilities at appropriate times in the years ahead. It is a school designed for student and community use.

My best wishes go with each of you.

With personal regards,

Anton J. Brence

The Warriors with an overall season mark of 4 wins and 5 losses placed third in the Western Connecticut Conference. They just missed a chance at the title in the Southern Division in their game with Ridgefield which resulted in a loss. The team was handicapped by injuries early in the year. There were outstanding performances by Price, Nessel, Pratt, and Spencer throughout the season.

The Wilton Warriors won the Western Connecticut Conference title with an outstanding 8-1-1 record. This was the second straight year that the Warriors have taken the title. The offense, led by Captain Mark Leckie, Jeff Hargadon, Jeff Harrington, and Doug MacKenzie, scored 25 goals during their ten-game season. The defense, headed by Gary Eaton, Don Pawlitz and Eric Weiland, helped goalie Jay Skardon get six consecutive shutouts.

The Harriers, with a 7-3 won-lost record, showed very well in the fall post-season state meet by placing 6th in the State Sectionals. Chris Ringston placed 20th in this meet and went on to place 31st in the State Open. Buly, Infanger, Mattison, Woehleke, and Schou were also consistently good.

Once again, limited pool time proved to be the drowning of the swim team. This, combined with the new, larger conference that the team competed in, caused them to have a losing season. Next year, the Wilton YMCA pool will be completed giving the team unlimited pool time. Coach Bruce Durbrow says everything points to a good team and a great season next year.

Wilton has just completed its first year in the larger, more competitive Fairfield County Interscholastic Athletic Conference. We wound up with a respectable 7-13 record. The Warriors were beset with many injuries and lost the first six games. They came back to win the last seven with the return of Steve Selinger to the lineup. Steve Selinger (an All-America guard) and John Nessel top rebound snagger, together with Jim Gambill, Dale Oehler, Kent Christian and Peter Jones all put in memorable performances.

Unfortunately, Wilton's third wrestling season was not as successful as everyone had wished. The Militiamen lost all but two of their matches and also lost their coach, Mr. Melchoir—to the U. S. Army. Two of the wrestlers, Scott Weinert and Don Henderson, had fine records and made it to the Sectionals. Both of these boys will be back next year and will undoubtedly contribute greatly to next year's season.

the new optics... a looking glass to tomorrow

Our young scientists are using the new optics to look into the next decade. And beyond.

They are combining laser and optics into optical data processing systems. Using optical instruments to probe the universe and unlock the secrets of molecular structure. Developing the laser into a communications tool for outer space and a measuring tool here on earth.

These and many other engrossing projects are possible because Perkin-Elmer is in the forefront of the new optics.

If you would like to help develop this young technology, consider a career in science. At Perkin-Elmer, Norwalk, Connecticut. An equal opportunity employer.

PERKIN-ELMER

Perkin-Elmer Physicist Betsy Alte experiments with laser-reflecting prism assembly similar to one left on moon.
